We solicit your cooperation in helping to make the 2016
County Fair the BEST FAIR ever held in Creek County.

When preparing exhibits, read carefully the rules
governing each department in which you expect to enter.
This will avoid misunderstandings at the last moment.

A properly conducted fair should and does result in quality
production. Not one factor does more to stimulate efforts on
the improvement in farm and ranch conditions than the
agricultural fair. It is there that the farmer has an opportunity
to see and observe the progress being made in the
improvements of farm crops and animals and to compare his
work with the efforts of others. His success in competing
with his neighbors stimulates him to greater efforts and his
failures teach him wherein his work is at fault.

It is the purpose of the fair association to make these fairs educational institutions and to encourage cooperation among farmers and men.

The management of the Creek County Free Fair is in the hands of the Creek County Fair Board, which is composed of three members elected from each Creek County Commissioners District annually for three-year terms.

The active management of the fair is in the hands of the executive board, consisting of president, vice-president, secretary, treasurer and five members of the board.

This is your fair and is intended to be of educational value to all who attend. No admission charges will be made where exhibits are present.

Bring the best you have in the way of livestock, farm crops, vegetables, fruit, canned goods, textiles, poultry, etc.

Plan your exhibits early. Read this catalogue. Select exhibits that have merit in their classes. Here is where you compete with your neighbor in your ability to select the best as well as in the production of the article itself.

If you win any contest, your neighbor who exhibits in the same class, can see where he has failed or profited thereby.

Come and bring your family. Do not forget the boys and girls, for they are the farmers and farmers' wives of the future. Help to make this fair a great success!

Sincerely,
Josh Enlow, President

Section 306
FAMILY LIVING DIVISION
4-H FABRICS AND FASHIONS

The Skill Mastery sheet <http://4h.okstate.edu/literature-links/lit-online/family-consumer-science/fabric/skill-mastery-sheets> is an education tool to guide project construction for fair exhibits. The projects have been carefully selected and directed for members to investigate and learn specific skills and information. The end product is being evaluated on the skills "you learned," as identified on the age appropriate skill sheet. It is encouraged that the sheet be submitted with the exhibit with the exception of the story board, portfolio and creative components. The intent is that the sheet serves as a "personal reflection" which shows the judge how much you really learned. Why? Because in 4-H, reflection and application are just as important as the end product. Sheets will not be displayed and will be returned. Not because the sheet is not important, but to simplify displaying.

Use the skill sheet as a planning tool. Ask yourself, "What skills are necessary to learn and appropriate to apply to my project's design and construction?" It is important that each 4-H member take responsibility for the life skill of "learning to learn." This may require members, leaders and educators to look up terms and learn techniques as part of the educational process.

Projects being exhibited for competition will be evaluated on the 4-H members "mastery" of skill(s) and subject matter. The 4-H Fashion and Fabrics Member's & Leader's Guides provide basic information that members need to learn (master) and demonstrate in their project work. Members are encouraged to seek out other valid resources which teach proper technique and knowledge in the areas of design and construction.

General Skills to be mastered in project/product in ADC, IDC and HTDC:

Structural Design: Construction technique, size, form, color and texture suited to the materials and product end use.

Elements of Design: The finished product illustrates the member is learning or “mastering” the basic elements of design - lines, shapes or forms, textures, colors, and space.

Principles of Design: The finished product illustrates an awareness and application of the principles of harmony, proportion, balance, rhythm and emphasis adding dimension, interest and/or appeal to the finished product.

Surface Design: Any lines, shapes, colors, textures, or materials applied to the product or item design that creates an emotional or personal quality, individuality and creative expression without disturbing initial/end purpose. Design is that “something which makes the item unique to the individual designer.

Project Resources – Go to <http://4h.okstate.edu/literature-links/lit-online/family-consumer-science/fabric> **Family and Consumer Sciences** for guidance for some of the new projects. These resources will better define multimedia, storyboard, portfolio, scientific and service learning models, leadership, historical/cultural significance, etc.

Got Questions? Ask them on the OK 4-H Fabric and Fashions Q&A Facebook page <https://www.facebook.com/pages/OK-4-H-Fabric-and-Fashions-QA/700780739954148>

Descriptions – Any project requiring a description will include 1-2 pages, double spaced, 12 point font. Neatly/legible hand written descriptions are acceptable.

A county may enter one exhibit in each class.

A 4-H member may enter one exhibit per class.

Hangers will not be returned.

ENTOMOLOGY - 4-H INSECT EXHIBITS

The exhibits in entomology are planned to be progressively more difficult. The specific age of exhibitor does not appear in the entomology section for this reason. Refer to 4-H entomology member guides 1-6 for more detail regarding fair exhibits. **Note: Fair book exhibit list overrides member guides.** A 4-H member may enter only one insect exhibit in Entomology (first year through fifth year). Exhibits in the first through the fifth year are allowed a maximum of five (5) foreign and/or out-of-state collected insects (no restrictions on self-determined exhibit). All insects must be mounted on standard insect pins which can be purchased from the State 4-H Office Each insect should be identified by their common name using the correct spelling. A typed master list indicating the scientific order and common name of each specimen should accompany the display. The master list document is located at <http://4h.okstate.edu/events-and-activities/oklahoma-state-fairs>. In addition, a pinned mothball should be included to preserve the specimens. Exhibits in Classes 1-5 are allowed a maximum of five (5) foreign and/or out-of-state collected insects. Exhibits in Classes 2-5 must be in insect display boxes measuring 19" x 16.5" x 3". This is the size of a

Cornell University Drawer. These boxes can be purchased at <http://www.bioquip.com/search/DispProduct.asp?pid=1012AM> or made using the pattern available at <http://4h.okstate.edu/events-and-activities/oklahoma-state-fairs>. **Boxes that are not this size will be DISQUALIFIED.** Specifications for the standard insect box are available at the OSU County Extension Office. At least one-third of the specimens in any collection must have been collected during the current project year. Information regarding Insect Collection can be found at <http://entoweb.okstate.edu/4H-FFA/> Specifications for the insect box are available online at <http://4h.okstate.edu/events-and-activities/oklahoma-state-fairs>

Amounts of fruits and vegetables in this exhibit should be such that they can be arranged in a neat and orderly manner and have good eye appeal. There must be enough of each fruit and vegetable for the judge to determine quality. All fruits and vegetables exhibited must be grown by the exhibitor. No specimens in this exhibit may be entered in another class. Any combination of fruits and vegetables may be used. Those not listed in the catalog may be included. The exhibit must be in a container such as a basket or box. It may be covered with a clear plastic cover but judges must be able to handle produce to determine quality. One third (1/3) of the judging will be on how well the exhibit is prepared and presented. Packing such as paper, straw or cloth may be used but the fruits and vegetables should be the main attraction of the exhibit.

**HOBBIES AND COLLECTABLES/LEISURE
EDUCATION**

The purpose of this project area is for members to learn about and document personal, 4-H, or subject related history using appropriate conservation, preservation and/or restoration methods. Think of this project like our own "4-H Antique Road Show" 4-H project area • Each exhibit will require research, and reporting to authenticate the item being exhibited and to justify the method chosen to preserve/display the item.

- 4-H Curriculum has been developed to introduce and educate 4-H members and volunteers in the preservation and conservation of artifacts. The criteria/standards used to evaluate the 4-H member exhibit will reflect the member's mastery of conservation and/or preservation techniques and their ability to document memorabilia/history. Use the updated (Revised 2014) Authentication Card (4H-HLTH-413).

- Authentication Card must be legible and securely attached to the front of ALL exhibits. Exhibits will be disqualified if they do not have a card

- The County and state fair will do their best to insure items are respectfully handled, but they do not assume responsibility for any item damaged or lost while on exhibit. Please consider this when entering your "collectables."

- No loose collections/set will be accepted. A collection must be securely attached/contained to make one entry. This means each item within the collection is enclosed in a frame, notebook, attached to a tray, or firmly attached to a rigid display board (foam core, matt board, corrugated plastic, etc.) in a manner where items cannot be separate from the collection.

• Curriculum currently available or under development: 4H HLTH 403; Preserving Vintage Clothing and Textile Products-Part 1; 4H HLTH 404 Preserving Vintage Clothing and Textile Products Part 2; 4H HLTH 405 Storage and Display of Heirloom Textiles in the Home; 4H HLTH 406 Preserving Books, Paper, Documents & Photographs; 4H HLTH 407 Preserving Metal, Wool and Plastic Collectables(N/A); 4H HLTH 408 Preserving Memorabilia; 4H HLTH 409 History Mysteries Part 1 Recording and retelling the history of 4-H and its people through stories; 4H HLTH 410 History Mysteries Part 2-Writing the story-your treasures-from Clues; 4H HLTH 411 Documenting and Cataloguing Collectables (N/A); 4H HLTH 412 Displaying Collections and Collectables (N/A); 4H PDL 111 Personal Development – Documenting our Heritage; and 4H HLTH 413 Authentication Card (Revised 2014).

HISTORICAL PRESERVATION, RESTORATION AND REPLICATION -of Photography

8. PHOTOGRAPHY-Purpose is to determine the member’s application of skills and knowledge gained in the area of restoration and preservation of antique/collectable photographs. Project work will be judged on research, knowledge and an appropriate method of preservation restoration or replication.

Authentication Card (Revised 2014)– Be sure to include when possible: documentation of the people in the picture, location, where it originated, photographer and why this particular picture deserves the historical “consideration” as a collectable.

Choose one of the following methods and justify your choice as it relates to preservation on the authentication card.

- a. Original photographs electronically copied, repaired/enhanced when necessary or printed from the original negative. The photo should be appropriately displayed for preservation purposes. Be sure to document why this particular picture deserved the historical consideration.
- b. Follow preservation guidelines as noted in 4H HLTH 406. Securely hinge original photo enclosed in a protective sleeve (so it can be lifted to view back of the photograph.)
- c. If the desire is to preserve the historic integrity of the photograph and frame, appropriate conservation methods should be researched, applied and documented as part of the exhibit.

COLLECTABLE(S)

Purpose is to determine the member's application of skills and knowledge gained in the area of restoration and preservation of hobbies and collectibles. Project work will be judged on research, knowledge and an appropriate method of preservation restoration or replication.

Any item or set must be displayed in a manner that provides protection, is secure and can be viewed.

9. Historic Replica – When an item cannot be restored, preserved or attained, a collector may have to replicate the item. When replicating an item it is important to research and duplicate the use of construction methods and materials as close as possible. Attach a picture/photograph of the original item.
10. Heirloom Restoration or Preservation – exhibit an antique or collectable which has been restored or preserved using appropriate methods. Attach a before picture of the item.
